Fine Photographic Prints

In our digital world, photography is instantly accessible on any screen, anywhere, anytime. Yet, the touch and feel of a fine photographic print or album cannot be replaced by digital images, and neither can the intimate interaction between family and friends sharing memories that have been tangibly preserved for generations to come. *f8studio, 972.669.2274, f8studio.com*

Lily Lane Home

Originating in nature, the elegantly detailed Acanthus leaf has been reinterpreted endless times in architecture and now crowns Juliska's iconic white dinnerware collection. This elegant motif moves easily from formal to casual and layers in beautifully with all of our other collections at Lily Lane Home. *Lily Lane Home, 469.941.4667, lilylanehome.com*

Three-Dimensional Draping

One of the most unique features of Nardos Imam gowns and cocktail collection is the beautiful architectural structure and eye-catching drape of fabric. The designer creates a dramatic sweep that is elegant, yet timeless. This fashionable feature is sure to turn heads of the most elite.
